

Strong Nix

Ron Efroni Rotman, Nix Board Member and CEO @ flox

Intro

- SWE/EM @ IDF IU
- Startups
- Leading Developer Product
- Big on non-profits, introus.o
- flox!

Topics

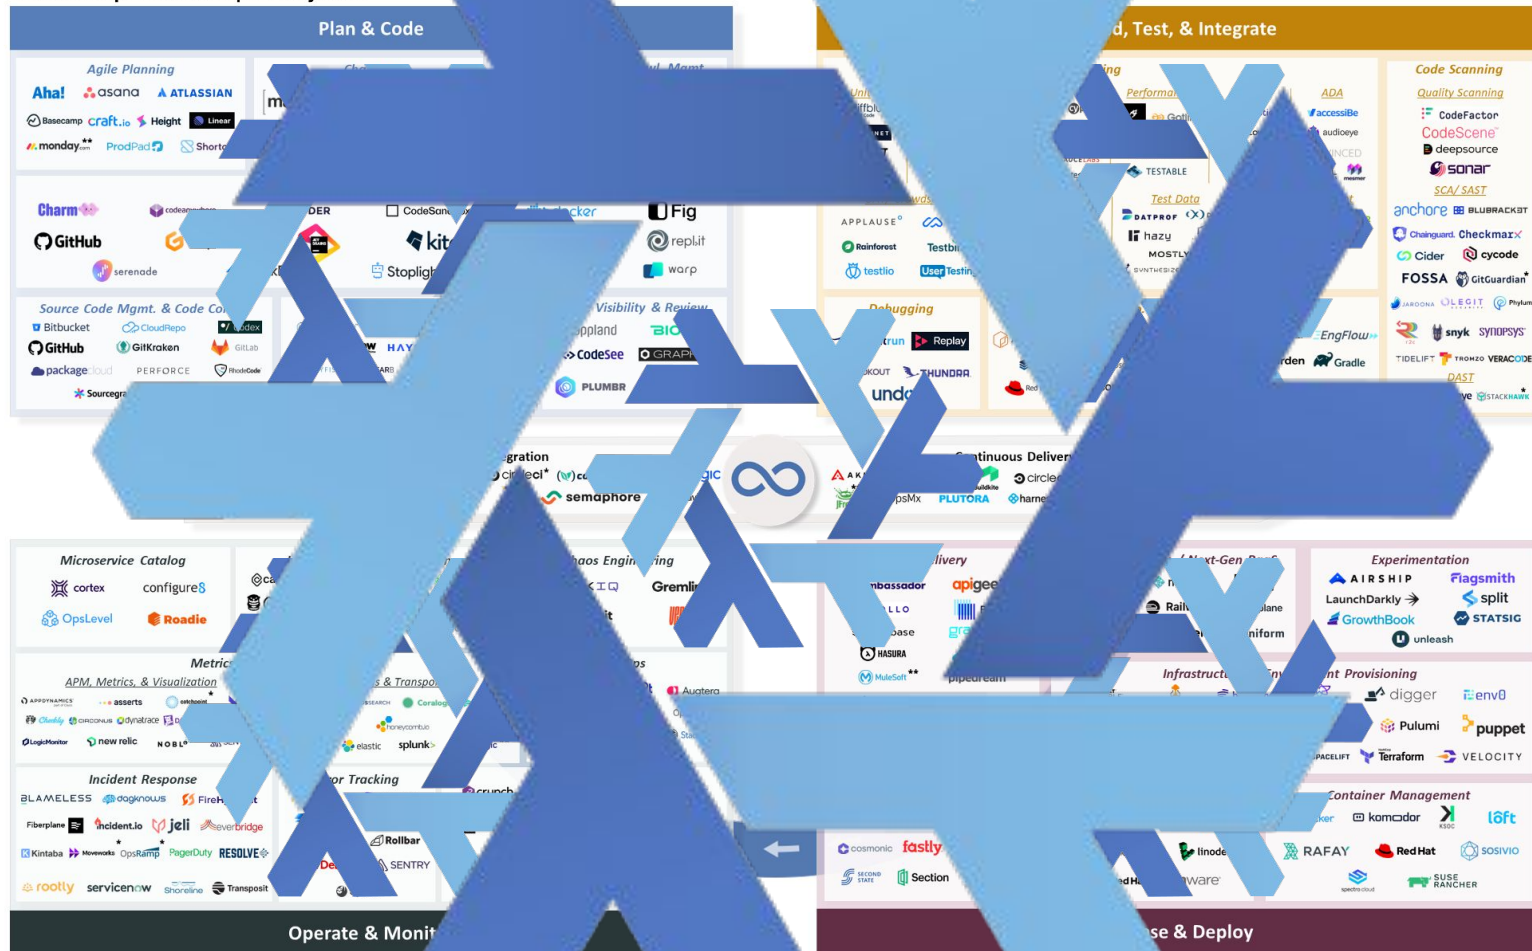

- Strong Nix
 - Why
 - Key Areas
 - Inflection
- Learning from our Neighbours
- Empowering Teams
- Community Power

why?

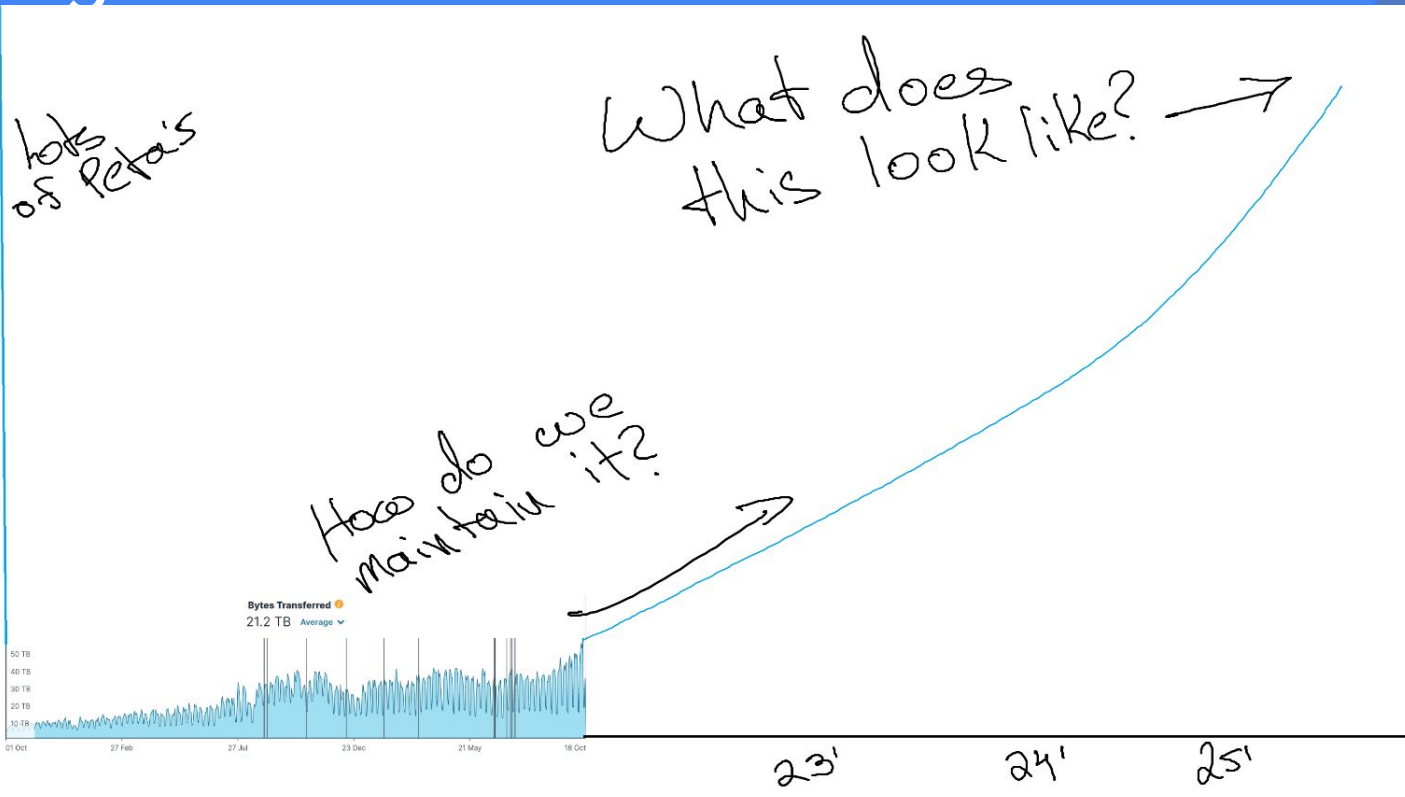

Why would we talk about Nix with
our friends?

Market Map: The DevOps Ecosystem

Strong Nix - The Inflection

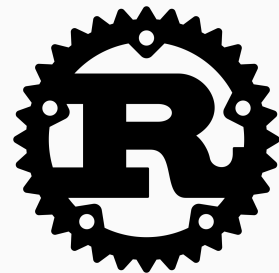

Open Source Neighbours

Learning from other fellow communities, both from their successes and failures.

- Plone - Érico Andrei, President
- Linux - John Mertic, Director of PM
- Rust - Shane Miller, Chairwoman
- Haskell - Richard Eisenberg , Chair of the Board

Open Source Neighbours - Key Takeaways

- Foundation serves the project and community, community is served by the project
- “Make sure that the Nix community stays a greenfield to anyone that wants to join”
- Integrate intentional priorities and plans - make it explicit
- Invest into empowering collaboration across the community (i.e. teams)
- “Drive the right awareness to the world” - Nix and its principles
- Keep prioritizing a strong community ethos and culture

Empowering Teams Alpha- Another Step Forward

We want to improve the functioning and impact of teams in the Nix project by giving them clear ownership and responsibilities, with greater support from the NixOS Foundation
